Including Tax	\$ 1,696.09	\$ 1,746.97	\$ 1,800.78

Explanation of Charges

Single-Family Properties: Residential properties are charged a flat rate per month, and are considered 1 ERU.

This rate was set based on aerial photo surveys which show that the average amount of impervious surface on a single-family parcel in Anacortes is approximately 3,600 square feet.

Commercial and Multi-Family Properties: Commercial properties are assessed a charge based on the actual amount of impervious surface area they contain (buildings, parking lots, etc.)(minimum of 1 ERU).

One ERU is equal to 3,600 square feet (ft²) of impervious surface.

Commercial Storm Water Fee = # ERU x Commercial per ERU per Month fee

Sample Calculation

A property has 10,000 ft² of impervious surface (parking lots, walkways, rooftops, etc.), so the storm water fee would be:

$$10,000 \text{ ft}^2 / 3,600 \text{ ft}^2 = 2.78 \text{ ERU}$$

$$2.78 \text{ ERU} \times \$9.68 \text{ per month per ERU} = \$26.91 \text{ per month}$$

Transportation Impact fee rate adopted via Ord. 3011

Rate Basis: 2016 Comprehensive Plan Transportation Element

Notes:

- Transportation impact fee rates are increased annually by the treasurer using the Engineering News Record Construction Index (CCI) as a basis for the increase.*
 - P.M. peak hour trips are determined by using the latest version of the ITE Trip Generation Manual published by the Institute of Transportation Engineers (ITE) for the land use(s) that are the subject of the permit. PM peak hour is the sixty minute period between 4:00 p.m. and 6:00 p.m. with the greatest sum of traffic volumes on a roadway segment or passing through the area of a transportation improvement project. Other trip generation rate sources approved by the City may be used where ITE data are based on a limited survey base or where there may be special trip generating characteristics of the proposal.*
 - If the land use does not fit into any of the categories specified in the land use table in the ITE Trip Generation Manual, the City Engineer may use the most directly comparable type of land use.*
- Review Fee for independent fee calculation: \$500 + additional staff time spent in the review and cost of consultant services if the City deems these services to be necessary.*
