

Note: It's important to always sign into the app using the same method.

- **The OverDrive account option**

Signing in with an OverDrive account (using an email address) comes with lots of added benefits, like the ability to sign into (or "authorize") other installations of the OverDrive app and Adobe Digital Editions on a computer (so you can download the same eBooks in each place).

- **The library card option**

This option comes with some of the benefits of a traditional OverDrive account, except that you can't use it to authorize Adobe Digital Editions to download eBooks on your computer, and you can only use it to sign into one library in the OverDrive app.

- **The under-13 or school option**

This option is recommended for users under the age of 13 who can't sign in using their library card. Also be a good choice for student who use OverDrive in their classes, because they won't need to create a separate account to sign into the **app**.
