

# MARITIME SPEAKER SERIES

# BUILDING THE VIKING SHIP POLARIS

Creating the 36' replica of a Viking ship originally built on Norway's West coast in 1030 AD took daring, patience, remarkable collaborations, and a good dose of skill. Fidalgo Island boat builder, Jay Smith, will share a tale of traditional shipbuilding that includes sawyers, blacksmith, sculptor, sailmaker, visionary owner, and the camaraderie that kept the project moving forward until a festive launch in November, 2017.

With Jay Smith

**Saturday  
November 17th  
4:00 pm**
