

# Ant Craft

## Supplies

- 2 plastic spoons
- 3 pipe cleaners or toilet paper roll
- Permanent Markers
- Tape
- Scissors

## Directions

1. Color both spoons with permanent marker.
2. Place one spoon handle on top of the other and wrap tape securely around both spoons.

Pipe Cleaner Ant – Fold pipe cleaner in half and place on top of ant and then twist one time on underside of ant. Holding both sides of pipe cleaner bring them together and cross over top and twist again on underside of ant. Now make this shape for the legs →

Toilet Paper Ant – Depending on the size of the toilet paper roll cut to fit the length of spoons that will be the body. Cut the roll open and color your ant body. Place the spoons in the middle of the toilet paper roll on the uncolored side making sure the head is in the right position. Tape body to spoons.

Draw four rectangles like above and cut them out.

You now have six legs. Make a fold at the bottom of each leg so your ant can stand up.

# MORE FUN WITH ANTS

## What do ants eat and drink?

Ants eat almost anything. They like unsalted crackers, cake, bread, fruit, meat, and leaves.

## Can ants “talk?”

Yes. Ants communicate by smell, touch, sound and sight. When an ant wants to attract the attention of another ant, it taps that ant on the head with it’s antenna.

## Do ants take baths?

Yes. They are very clean. If you see ants rubbing their faces with their legs they are cleaning themselves.

## Play the “What is it?” Guessing Game

Say the words “**MARCH** and **DIG**” then give this first clue:

Lived on Earth for over 100 million years.
