

Castle

Supplies:

Wrapping paper tubes
Toilet paper tubes
Cardboard boxes
Tape (duct, painter or package)
Hot glue
Markers, paint or crayons

Juice or milk container (64 oz)
String / yarn (drawbridge)
Straws or skewers (drawbridge)
Ribbon or fabric (flags)
Large brown bag or brown mailing paper (cover container)
Eraser or sponge to paint on bricks

Week 1 - gather supplies to get started. Take time to draw what you want your castle to look like. Choose materials you have around the house. It's all about using your imagination to create your castle.

64 oz juice or milk container

cut top off

tape middle - four sides
tape four corners (using the whole piece of tape)

Cut big rectangle of paper and place castle at the bottom. Trace the top of castle by turning castle until all four sides have been drawn.

Dip eraser in paint to print bricks on paper.

Find middle of paper and draw door and windows – then paint.

Cut top carefully so you have two pieces.

Cut door from paper and trace onto castle. Now cut castle container.

Glue paper door on and cut out drawbridge and glue to inside of castle.

Looks like this when glued.

Glue paper around castle.

Should look like this.

Mark and hole punch the drawbridge and the castle.

Make hole 4" from bottom. a nail works good and then insert your skewer or straw.

Top view. Cut string long enough for drawbridge. Tie string to skewer.

Secure with hot glue.

Secure with hot glue.

Knot, hot glue and cut string on outside of castle. Just turn skewer to open and close drawbridge.

For turrets, glue paper onto toilet paper rolls. Adjust for height.

Make two slits on turret and slide onto castle.

Glue ribbon on tissue paper.

Cut into flag and glue to straw.

Tape to inside of castle.

FINISHED CASTLE! HAVE FUN MAKING AND PLAYING WITH YOUR NEW CASTLE!
