

The Giant's Castle – Storytime 6/22/2020

Supplies:

Pool Noodles	Permanent Markers
Pipe Cleaners	Scissors
Recycled bubble mailer	Knife (to cut pool noodles)
Cardboard box	Hot Glue Gun
Paint	Tape

Use your imagination when making this fun castle. Mine is small and I could have easily made more towers with the pool noodles. This was so easy and fun and young children will have lots of success.

Pool Noodles – Dollar Tree

Cut various heights and decide on placement of towers.

Bubble mailers work great for turrets.

Decorate with markers and pipe cleaners. I wanted my towers to all be together so I created a stand for them out of a cardboard box and a flat sheet of thin cardboard.

Cutting out the circles took some time and I had to use an xacto knife. I like being able to move the towers around for a different look and they don't fall over.
