

Emperor

Supplies:

Toilet paper rolls (2)

Paint or Markers

Pipe Cleaners

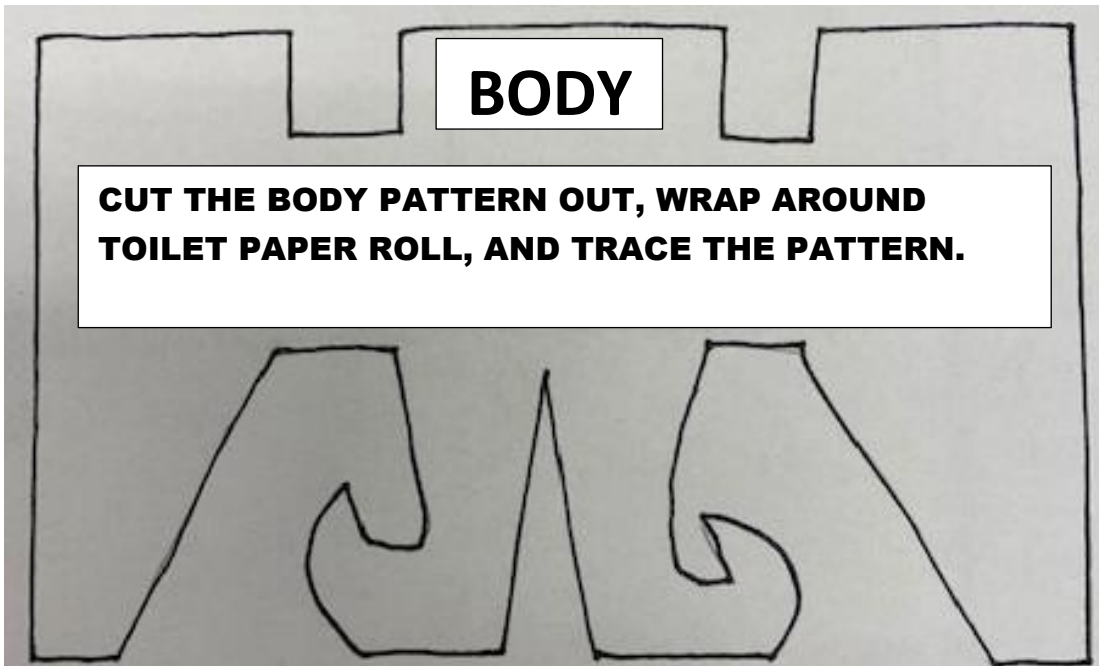

Scrap fabric for robe

Hot glue gun

Popsicle stick for arms

Optional: stickers or beads to add to the Emperor's outfit.

Paint your toilet paper roll black.

These cuts represent where the arms will go. I cut a little more off from the pattern.

Cut small piece for head. Shape into oval and glue cardboard for head.

Glue pipe cleaners on top for hair. Using a lollipop stick wrap pipe cleaner around to make a curl then glue it all down on both sides.

Make a crown and glue to top of head.

Make a collar and hot glue to the top of the body.

Having the collar helps hide where the popsicle stick goes for the arm.

Cut a piece of fabric for the royal robe. Make your robe as long or short as you want. I just took the fabric and wrapped it around to get an idea of the fit and then cut it out.

Hot glue the pipe cleaners on to make it look like clothes. I just cut small pieces of pipe cleaner and glued to top of crown. Slide popsicle stick in for arms.

Put the robe on and add a little bit of glue to hold in place.
