PRESS RELEASE

FOR IMMEDIATE RELEASE

Access Anacortes Fiber Internet– West Side Expansion

February 26, 2021

Anacortes, WA – Access Anacortes Fiber is in the design process to extend the City’s fiber network to the west side of town. As part of the process stakes are being placed along the street right of way by our contractors. These stakes represent where parts of the fiber infrastructure will be placed later during the construction phase. The planned infrastructure is designed to serve all residents within the geographic area. The deployment of fiber infrastructure will require some roadwork to extend the fiber through the west end neighborhoods.

For any questions or concerns, please contact CJ Jones at Access Anacortes Fiber Internet at (360) 588-8300 option 2 or John Norris, the department’s Outside Plant Coordinator at (360) 770-4664. Orders are currently being accepted for fiber internet service. Sign up for Access, Anacortes Fiber Internet at fiber.cityofanacortes.org.
