# My Fingerprints

Left Hand

To make fingerprints without a stamp pad all you need is paper, pencil and clear tape. Scribble a large area on your paper with the pencil, then take your finger and rub across the paper. Cover your finger with tape and press down to get a good fingerprint. Carefully take the tape off and place it in the square of the matching finger of each hand.

Right Hand

Take a closer look at your fingerprints by checking out a Magnifying Glass from the library. Just search for "STEAM KITS" in the Catalog.

**HAVE  
FUN!**
