

# RESEARCH FILE INDEX

Welcome to the Anacortes Museum's index to the contents of our extensive research files. These files were created by Terry Slotemaker, with the assistance of others on the museum staff, during his (second) career as the Anacortes Museum Educator between 1994 and 2011. The files consist of newspaper and magazine articles, directory listings, and unique research done by Terry and other historians. Thankfully, even after retirement, Terry's work continues to this day.

To search this pdf document, click "Edit" then "Find" and enter a search word.
